

Henry Chambers

TRANSPARENCY

Henry Chambers recognises the importance of instructing the right barrister for the right case. Everyone at Chambers is flexible and approachable.

Our fees are transparent. The more information provided about the case, the more accurate an estimate can be made as to the fees associated. Estimated bracketed fees can be offered to assist in providing estimates.

On any advisory work (e.g. written or in conference), generally work will be undertaken at a disclosable hourly rate.

For advocacy services, fees will be agreed on a fixed fee basis. The brief fee is usually applicable to pre-hearing preparation and the first day of any hearing. The refresher fee is the agreed fixed rate for subsequent days of the hearing thereafter.

In providing fees estimates, factors taken into consideration include the complexity of the issues, required preparation, expertise, and seniority of barrister along with the size of the papers.

Henry Chambers always aims to set out fee quotes clearly. If at any stages there is something that you do not understand, please feel free to contact us.
